

Become a part of our Team!

(Intern) Front-End Web Development

About us

kontextR GmbH is a Munich-based Cloud-Service- and Ad-Tech Company. The name stands for Context-Relevance. We develop primarily software for publisher, who can profit from more outreach in the form of innovative inText Content- and Ad- formats with a higher user acceptance. Apart from this, we are working on and developing new ways to promote accessibility on the Web

Your tasks

- Support of our Dev-Team
- Further development of our User Interfaces
- Development of cross-browser extensions/scripts

What you bring to the table

- Motivation to learn new technologies
- Knowledge of web technologies (JS)
- Experience with at least one JavaScript-Framework (Angular,React,Vue...)
- Motivation to take on responsibility in a technology startup

What we offer

- Work & Study? We offer the flexibility
- Individual coaching and mentoring
- Young and agile team, working with innovative as well as time-proven technologies
- A look into Test-Driven-Development (TDD)
